Paper prepared by: Clerk to the Parish Council for Parish Council Meeting: of 9th November 2022

Agenda Item 5ii - to consider the costings from SCC Highways Department on the project to consider improvements to the directional signage for Lindsey

Costs provided by LHB Engineers, Suffolk Highways – Council to note that this is not an official estimate but intended to be reasonably accurate at this time to give the Council an idea of how much each sign will cost including materials, traffic management and disposal of old. The costs are all from the standard agreed rates and are not negotiable.

If the costs are shared and Cllr Finch contributes 51% or more from his Local Highways Budget (LHB) then no overheads and VAT will be applied, however if the Parish solely fund, the additional cost will apply.
