

CONNECT BOX FOR 4G ACCESS

EVOLIS VISION AND MOBILITY RADAR

EASY INSTALLATION

AVAILABLE AS A
STANDALONE
PURCHASE

TIME-SAVING

OVERVIEW

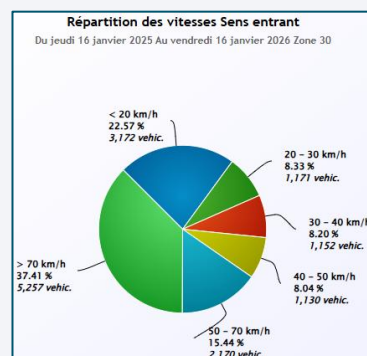

The Connect Box enables your EVOLIS speed sign to become fully connected thanks to its integrated 4G SIM card.

Designed as a **Plug & Play*** solution, the box is easy to install, requires no technician intervention, and does not require any modification to your device. You gain autonomy, flexibility, and faster management, whether you operate a single radar or an entire fleet.

Once the **Connect Box** is installed, your traffic data is automatically transmitted to your secure **EVOWEB** online platform. This allows you to monitor your data remotely, without any manual intervention or need to visit the device on-site.

Connect Box Dimensions: 14 x 3 x 4,5 cm (H*W*D)

Example of graphical data available on EVOWEB

FOCUS ON OUR 4G SUBSCRIPTIONS
