DC/20/00069 Proposal: Full Planning Application - Erection of muck clamp for temporary storage of horse waste @ Land at Canada Cottages, Lavenham Road, Lindsey, Ipswich Suffolk IP7 6PW  
The plans were reviewed by all present at the meeting and the following comments made:  
The Parish Council was not aware that the footpath had been moved as implied by the documents submitted and it was noted that the only response received to date as shown on the website was from Babergh Environmental Health Department who had no objections with regard to land contamination. With regards to temporary storage it was noted that the clamp itself will not be temporary, rather that it will be the muck that is temporary as the muck will be recycled regularly. Whilst there was some concern regarding run off contamination to the ditches overall the council feel that it was a better solution than just a heap. All agreed that the Parish Council had no objections to the proposal.
  - ii. To note the following planning applications determined by the local planning authority: there were none.
5. **PARISH COUNCILLORS' REPORTS:** to receive reports on village issues from Councillors present –
  - i. Beacon sleeve was now installed and once dry the beacon will be installed.
